Healing Touch Certificate Program

The Healing Touch Certificate Program is a multi-level course of study in energy-based therapy that moves from beginning to advanced practitioner and is complementary to health care. The program incorporates a variety of energy-based modalities that are sequenced in Levels 1 through 5, allowing participants to progress from beginner to practitioner. Students receive a certificate of completion at each level. Upon completion of Levels 1-5 and additional requirements, students are eligible to apply for certification through Healing Touch International, Inc. Level 6 prepares the individual to become an instructor. Each level in the Healing Touch Certificate Program includes both didactic and experiential learning in which participants practice and share experiences using energy-based healing techniques. In addition, the program encourages the developing practitioner to enhance skills and knowledge through recommended readings and practice sessions. There is also a strong commitment to personal growth and knowledge of holistic health principles.

Target Audience
